VXM

La VXM si presenta sobria ed elegante, volutamente minimalista ed essenziale. L'ampia superficie vetrata mette in risalto l'originale esposizione orizzontale delle bottiglie, creando una suggestiva scenografia. L'impianto di refrigerazione centrale non altera gli equilibri estetici, si integra in modo discreto e, come per magia, assume la forma di un elegante portabottiglie. Le temperature differenziate consentono di conservare sia vini bianchi che vini rossi a una temperatura ideale, con la garanzia che ogni bottiglia sia sempre pronta per ogni occasione.

VXM is sober and elegant, deliberately minimalistic and essential. Its broad glass surface emphasizes the original horizontal bottle display, creating a suggestive scene. The refrigeration system does not alter its aesthetic balance, it integrates discreetly and – with a touch of magic – turns into an elegant bottle holder.

Differentiated temperatures allow both white and red wines to be stored at an ideal temperature, with the assurance that each bottle is always ready for any occasion.
